## Giannis Antetokounmpo knows how to achieve his goals!

The story of Giannis Antetokounmpo is one of the most impressive success stories of our time. Giannis sets high and seemingly unattainable goals, but with hard work and effort she manages to push her own limits and achieve what she dreams of. Giving up is a word unknown to Janis. These are the values that are common to Giannis and STR8 - the favorite scent of many young people. STR8 and Janis have the same approach to life - they follow the goals and always look forward, so from here the essence of their cooperation can be conveyed in the simple message: What you want is ahead!

Giannis believes in hard work, determination and perseverance. These are the three basic attributes that help him always move forward, and thus he wants to inspire all young generations to follow his example.

To get to know Giannis perfectly, it is enough to convey three of his quotes:

"The only way to success is through hard work and patience."

Giannis spends most of his time with the ball - in training and on the field. He continues to work hard every day to further improve his game. He does not believe in a shortcut to success but only in hard work and motivation!

"Believe in your inner power to lead you to the desired goal"

Self-confidence is one of the best qualities of any young person. Janis wants to help young people follow his example, believe in themselves and believe that they can make their dreams come true.

"Stress is always good because it is an indication that you are taking care of things. But do not let stress overwhelm you, stay in control of the situation."

Giannis may well know the weight of the decisions that each young person should make on the path to their goals. He knows about the stress that these decisions bring and wants to point out to young people not to let stress be a barrier between them and their dreams.
